Preoperative COVID Test

Dear Patient: You will need to have a preoperative COVID test done **4 days before** your surgery date.

- If you are having surgery at United Hospital, it is recommended that you have the test done through an Allina facility. To schedule this, contact Allina's Customer Experience Center at 612-262-4145.
- If you are having surgery at any other location, please contact your primary care office to have the test completed.

***Once your COVID test is complete, you must quarantine at home until the day of surgery to prevent the chance of getting sick after being tested.**

Dear Health Care Provider: Please perform a preoperative COVID test and fax results to Midwest Spine and Brain Institute as well as the surgery location listed below.

Midwest Spine & Brain Institute fax number: 651-430-3827
